WATER REPELLENT FOR TERRACES

Solvent-based protection for terraces in terracotta, clinker, stoneware, stone and concrete.
Prevents from any problem of infiltration, formation of moulds and efflorescences.

? HOW

- On a well clean and dry surface apply using a pincer or a roller making sure to seal joints and cracks.
- Avoid eventual excess of product using a cloth within 10-15 minutes from application. On particularly absorbent surfaces apply a second coat 24 hours after the first.
- Treated surface can be walked 12 hours after last coat
- Make a test before application, the product may enhance the tone of the surface.
